Phase 1 high level overview of functionality:

iOS app
- Facebook, Twitter and Email signup
- Fixture predictions (38 games)
- Fixture updating
- Profiles
- private leagues (and integration with facebook)
- Premier league table
- Season/Weekly leaderboards
- In app trading points purchases

Website (basic)
- Landing page (with link to app store)
- Register your interest (if applicable)
- Admin access (result update)
- User management
- Push notifcation

Android (Basix)
- Facebook, Twitter and Email signup
- Fixture predictions (38 games)
- Fixture updating
- Profiles
- private leagues (and integration with facebook)
- Season/Weekly leaderboards

The Phase 2 feature that we would like to also have:
- Calender integration (for fixtures)
- Betting site integration
- Live score updates/news feed
